

ISIJ International is a monthly publication of The Iron and Steel Institute of Japan (ISIJ). Timely and original contributions are invited from worldwide ISIJ members and nonmembers.

1. Scope: The scope of the journal extends from the core subject matter of iron and steel to multidisciplinary areas in other materials and processes. The journal provides a medium for the presentation and discussion of all aspects of materials and processes, including preparation, processing, properties, characterization, and application.

2. Category:

(1) **Regular Article** (maximum of ten printed pages): An original article documenting significant results that contribute to the extension of knowledge and promotion of our understanding, and that is presented in such a way that qualified workers can replicate the key elements on the basis of the information provided.

(2) **Review article:** An article about an extensive survey on one particular subject, in which already published information is compiled, analyzed, and discussed. Reviews are normally invited, but voluntary proposal of a review topic(s) by a prospective author(s) is welcome.

(3) **Note** (maximum of three printed pages): (a) An article on a new finding or an interesting aspect of an ongoing study that merits prompt preliminary publication in condensed form; (b) a medium for the presentation of new research and techniques; (c) topics, opinions, or proposals that would be of interest to the readers; and (d) criticisms or additional proofs and interpretations in connection with articles previously published in the Institute journals.

3. Language: All contributions must be written in **English**. Latitude in the spelling—American or British—is permitted, but consistency is required.

4. Units: The standard SI units must be used. Non-SI units should be confined to those that have been approved for use with SI units by the Editorial Board.

5. Requirements of manuscript: The manuscript should not have been copyrighted, published, or submitted for publication elsewhere.

The manuscript that doesn't conform to "Instruction for Authors" and "A Guide for Preparation of Manuscript" is not received.

The PDF file of the manuscript with title page, synopsis, key words, text, references, appendices, list of captions, tables, and figures, should be uploaded. The above-mentioned synopsis and keywords should be filled in the prescribed column of the electronic application form except the submission of Note.

Figures should be of a superior quality for direct reproduction for printing. Papers exceeding the page limit may be returned to the author for condensation prior to review.

6. Procedure of Submission: The manuscript should be submitted via ISIJ International electronic submission's site on the following URL.
<http://ess.jstage.jst.go.jp/contrib/ISIJINTERNATIONAL/i>

nitialsubmission/-char/en (for English)

<http://ess.jstage.jst.go.jp/contrib/ISIJINTERNATIONAL/i>
nitialsubmission/-char/ja (for Japanese)

The submission without using the electronic submission system, will not be received after April 1, 2011.

The day when the electronic submission is completed and the manuscript number is given is made to be a received date.

7. Review: Every manuscript undergoes a peer review according to established criteria.

8. Revision of manuscript: In the event that the original manuscript is returned to the author for revision.

The pdf of the revised manuscript must be submitted within three months.

9. Final manuscript: The day when the Editorial Board of *ISIJ International* decides to accept the manuscript for publication is made to be an accepted date.

Upon acceptance, the author should upload the electronic files of the final manuscript in Word for text, and tif, jpg and other appropriate files for figures.

10. Proofs: The representative author will receive the galley proof of the paper. No new material may be added to the proof. It is essential that the author return the proof before a specified deadline to avoid rescheduling of publication in a later issue.

11. Copyright: The submission of an article implies that all copyrights provided in Article 21 through Article 28 of the Copyright Law of Japan are transferred to The Iron and Steel Institute of Japan. The transfer is effective by putting the checkmark in the relevant column of the electronic application form and becomes void if the paper is not accepted for publication in the journal.

In cases in which there are multiple authors, a representative to whom relevant authorities are delegated shall check the same. The representative shall assume all responsibilities related to the transfer of copyrights.

12. Page Charge: The author must consent to the page charge and put the checkmark in the relevant column of the electronic application form related thereto. A charge of ¥7,000 per printed page will be collected for the published papers. Fifty reprints and the PDF file of published paper will be supplied to the author without additional charge (only the PDF file will be supplied from Vol.51, No.1).

The page charges may be waived on the author's request. The Application for the Page Charge Exemption shall be accepted only at the time of submission of an article. Authors eligible for the Application for the Page Charge Exemption shall be limited to students and researchers affiliated with overseas universities and public institutions. The Editorial Board determines whether exemptions should apply and informs the applicants of its decisions.

In the event that the author finds it difficult to pay the page charges, download the "Application for the Page Charge Exemption" from the ISIJ web site, fill in and upload it with cover letter file.
