

↘ Announcement ↙
ISIJ decided not to prepare a PC in a session room.
Please bring your own PC that charges it enough.

The following instructions are applied to the ISIJ Meeting.

You are strictly requested to prepare your presentation following the environment listed below:

1. PC projector is prepared in the room for your presentation.
(Note: Overhead projector is not prepared)
2. **PC is not prepared in the room.**
3. You can check your presentation in PC in the PC preview room.
If you plan to play video files or to use non-MS windows power point files, we strongly recommend you to check these files can be visible correctly beforehand in the PC preview room..
4. A PC projector system we prepare is as follows:

Following is the request for the preparation of the day;

5. **Please protect your own PC and PC data.**
ISIJ cannot take any responsibility for broken, lost or stolen items.
6. Please connect your PC to the selector of the projector beforehand. Also, before starting the session that you will present your paper, you should ensure that your PC and projector is working correctly during the break. Please keep your PC as it is during the session.
Display size of your PC should be in XGA(1024 * 768).
Connector is Mini D-sub 15 pins in 3 rows. Please check the connector of electric source of your PC, because a connector made in foreign country sometimes differs from Japanese one.
